From the President

On behalf of the administration, faculty and staff at Columbia College, we welcome you to our campus! Columbia College is proud of our commitment to student success, excellence and responding to the changing needs of our students and the world we live in. Whether you are just beginning your college education or building on previous experiences in higher education, we are glad that you have chosen Columbia College.

As a community college, we focus on providing a friendly environment that is supportive of students and nurturing growth and development. So whether you are seeking a degree or certificate, planning to transfer to a four-year university, preparing for a career change, or upgrading your skills, Columbia College can help get you there.

When considering classes at Columbia, be sure to also consider distance education. We've expanded the number of our distance education courses to meet a growing demand. That means you can take classes 24/7 to suit your daily schedule and activities. With a computer and an Internet connection as the only requirements, you can learn in the convenience of your own home, or wherever you choose.

Last October, Columbia College was honored to receive the Hewlett Foundation's Leaders in Student Success Award. Columbia was one of four California community colleges out of 110 in the state to be recognized for this award.

The cornerstone of the college's commitment to academic excellence is our dedicated faculty. In turn, they are supported by our enthusiastic administrators and our staff of professionals, who provide admissions, counseling, financial aid, tutoring, and a whole range of essential student services.

Our wish for you is that you grow, mature and excel while here at Columbia College. Like so many before you, we hope to bring you the opportunity for a brighter future.

All my best,

Joan Smith, Ed.D.

In this wooded setting, Columbia provides a comprehensive program of academic and vocational education, which focuses on the dignity and worth of each individual student. Class sizes allow for lots of personal attention, and instructors are very accessible for student consultation.

Whatever your reason for choosing Columbia College, you'll know that it's your *golden opportunity* from the moment that you set foot on our campus!

Yosemite Community College District

Columbia College and Modesto Junior College (MJC) are institutions of higher education, both affiliated with the Yosemite Community College District (YCCD).

In 1964, action by the district electorate expanded the former Modesto Junior College District into the YCCD. This created one of the largest community college districts in the state geographically, encompassing nearly 4,000 square miles from the San Joaquin Valley and the coast range on the west to the Sierra Nevada on the east.

Today's YCCD includes Tuolumne and Stanislaus Counties, along with parts of San Joaquin, Merced, Calaveras, and Santa Clara Counties.

Prompted by a growing need for educational opportunities in mountain communities and concern with the lengthy student commute to MJC, the YCCD Board of Trustees established Columbia Junior College in 1968. "Junior" was dropped from the name in 1978. Originally on the quarter system, Columbia College changed to the semester system on July 1, 1984.

The college is listed in the directories of the United States Office of Education, American Council on Education, and Western Association of Schools and Colleges.

Student Right-to-Know Rates

Completion Rate: 23.89%

Transfer Rate: 26.99%

From 2004 COHORT Data

In compliance with the Student Right-to-Know and Campus Security Act of 1990 (Public Law 101-542), it is the policy of the Yosemite Community College District and Columbia College to make available its completion

Beginning in Fall 2004 a cohort of all certificate-, degree-, and transfer-seeking first-time, full-time students were tracked over a three-year period. Their completion and transfer rates are listed above. These rates do not represent the success rates of the entire student population at Columbia College, nor do they account for student outcomes occurring after this three-year tracking period.

Based upon the cohort defined above, 23.89 percent attained a certificate or degree or became transfer-prepared during a three-year period, from Fall 2004 to Spring 2007. Students are considered transfer-prepared when they have completed 60 transferable units with a GPA of 2.0 or better.

Based upon the cohort defined above, 26.99 percent transferred to another postsecondary institution prior to attaining a degree or certificate, or becoming transfer-prepared during the five-semester period from Spring 2005 to Spring 2007.

College Policies & Procedures

Student Nondiscrimination Policy

It is the policy of Columbia College to provide an environment free of unlawful discrimination. Discrimination on the basis of ethnic group identification, religion, age, sex, color, or physical or mental disability in the College programs, activities, and work environment is unlawful and will not be tolerated by the College (*District Policy 5027*).

The College strongly forbids any form of discrimination and has enacted the following procedures to recognize and eliminate unlawful discrimination. These regulations provide for the investigation of alleged unlawful discrimination in its programs or activities. The college will seek to resolve the complaints in an expeditious manner.

2. Any rule, policy, or practice concerning disability due to pregnancy, childbirth, recovery from childbirth or termination of pregnancy, or other psychological conditions related to the capacity to bear children not applied under the same terms and conditions and in the same manner as any other rule, policy, or practice relating to any other temporary disability except as otherwise provided by the Fair Employment Practice Act.

Sexual Harassment Policy

It is the policy of the Yosemite Community College District to provide an environment free of unlawful discrimination in its programs, activities and work environment. As such, sexual

harassment will not be tolerated.

Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment when:

- Submission to sexual conduct is an explicit or implicit term or condition of an individual's employment, academic status, or progress.
- Submission to or rejection of sexual conduct by an individual is the basis for a decision affecting that individual's employment, academic status, or progress. (Education Code Section 212.5)
- Sexual advances, requests for sexual favors, or other verbal or physical conduct of a sexual nature have the purpose or effect of unreasonably interfering with an individual's work or academic performance or create an intimidating, hostile, or offensive work or educational environment.

The District strongly forbids any form of sexual harassment, including acts of non-employees. Disciplinary action will be taken promptly against any student or employee, supervisory or otherwise, engaging in sexual harassment. (District Policy 5520)

Nondiscrimination Compliance

In compliance with Title VI of the Civil Rights Act (1964), Title IX of the Educational Amendments (1972), Section 504 of the Rehabilitation Act (1973), Americans with Disabilities Act (1990) (ADA), and Age Discrimination Act (1975), Columbia College does not discriminate on the basis of race, color, national origin, sex, disability, or age in its educational programs or employment. Inquiries concerning the application of these Federal laws to College programs and activities can be directed to the following persons at Columbia College, 11600 Columbia College Drive, Sonoma, CA 95370-8580.

It is the policy of the Yosemite Community College District that no student shall be denied access to any course, service or activity on the basis of race, creed, national origin, age, sex, or disability. Lack of English language skills will not be a barrier to enrollment.

Es la regla del Yosemite Community College District no negar al estudiante acceso a ningún servicio, curso o actividad en base de raza, credo, nacionalidad, edad, sexo o impedimento. La falta del idioma inglés tampoco será un obstáculo para la matriculación.

Children in the Classroom

Children may not attend classes at any time.

Domestic Animal Policy

Columbia College is home to a variety of wildlife.

All domestic animals are banned from the Columbia College campus.

Exceptions are guide animals for the disabled and Columbia College animals used for official purposes.

In addition, no animals are to be left in vehicles on campus property.

Drug-Free Campus Policy

In compliance with the Drug Free Schools and Communities Act, Columbia College is committed to the success of all students. Drug and alcohol use can be a major hindrance to achieving a successful school career. In compliance with the *Drug-Free Schools and Communities Act* and *The U.S./Drug-Free Workforce Act*, Columbia College policy prohibits the illegal use, possession, manufacture or distribution of controlled substances on the College campus and any premises owned, leased, or rented by the College. Students violating this policy are subject to disciplinary action in accordance with the Columbia College Student Code of Conduct. Disciplinary action may include expulsion from College and/or punishment under local, State and Federal law. Columbia College Health Services and Wellness Programs offer education and information on drug and alcohol use and can provide referrals to community agencies or rehabilitation. Students are encouraged to seek assistance.

Open Class Policy

Unless specifically exempted from statute, every course, course section or class (for which attendance is reported for State aid) is open to enrollment and participation by any person who has been admitted to the College and who meets such prerequisites as may be established.

Exception to this policy will be made where health, safety, legal requirements, or the facility is a limiting factor in the delivery of the course. Students who are denied enrollment by this policy may appeal to the Vice President for Student Learning.

Selective Service Registration

Every male citizen of the United States and male immigrant residing in the U.S., ages 18 through 25, must register for the Selective Service. AB 397, recently signed into law, as Chapter 1, Section 69500, Part 42 of the Education Code, requires that men who apply for state-funded post-secondary school financial aid must be in compliance with the federal Military Selective Service Act before they can receive such aid.

Informational flyers and mail-back registration cards are available on campus at the Financial Aid Office and Career/Transfer Center. Additionally, students can obtain further information or initiate a registration online by visiting the Selective Service home web page at <http://www.sss.gov>

Smoking on Campus

Due to the high fire danger during much of the year, College policy restricts smoking activity to limited areas on campus. Smoking is only permitted in designated smoking areas which are available in the vicinity of all campus buildings.

Student Complaint Procedures

Purpose

The purpose of the Student Complaint Procedure is to provide students with a prompt and equitable means of seeking an appropriate resolution for alleged violations of student rights which are protected under the Non-Discrimination Policy and the Sexual Harassment Policy. Columbia College uses the same procedure and forms for filing complaints based on unlawful discrimination and sexual harassment. Complaints based on unlawful discrimination, including sexual harassment, may be filed against an instructor, an administrator, a member of the classified staff, or another student.

The Yosemite Community College District Discrimination and Sexual Harassment Procedure requires a student to use the informal procedure for resolving an alleged discrimination or sexual harassment complaint before invoking the formal procedure. The rights protected under these procedures include, but are not limited to, the policies of the Yosemite Community College District, Title VII of the Civil Rights Act of 1964, the Education Code of California Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990.

Student Complaint Procedure

In the pursuit of academic studies and other college sponsored activities that will promote intellectual growth and personal development, the student should be free of unlawful discrimination by any employed member of the academic community. *Students disturbed by the actions of other students have recourse through the Student Code of Conduct procedures.*

A complaint may be initiated by a student against another student, an instructor, an administrator, or a member of the classified staff.

Informal Complaint Procedure Regarding Unlawful Discrimination

A student complaining of unlawful discrimination shall, within 120 days of occurrence, meet with the Vice President for Student Learning.

Students are advised to obtain written instructions for the filing of a complaint from the Vice President for Student Learning.

The District has established the following internal procedure to resolve charges of unlawful discrimination including sexual harassment.

- The complainant shall use the informal procedure before using the formal complaint procedure.
- The complaint must be invoked within one year of the date on which the complainant knew or should have known of the facts underlying the allegations of unlawful discrimination.
- The process begins when the complainant meets with the Vice President of Student Learning or his/her designee.
- The Vice President of Student Learning or designee will fill out an interview form at that meeting.
- The Vice President of Student Learning or his/her designee will notify the accused that the College has received a complaint naming the accused. The Vice President of Student Learning or his/her designee shall also provide the accused with:

 - the right of the accused to representation during the investigation
- The Vice President of Student Learning or his/her designee shall

investigate the complaint which may include meeting with the complainant, the accused, and witnesses, as appropriate.

- After the Vice President of Student Learning or his/her designee determines the appropriate resolution, the Vice President of Student Learning shall meet with the complainant to discuss the complaint in an attempt to resolve the matter. The Vice President of Student Learning or his/her designee shall inform the complainant of his or her right to invoke the formal complaint procedure, if the complainant feels the matter has not been properly resolved.
- The interview form, and any other documentation, shall become part of the official complaint investigation file if a complainant invokes the formal complaint process. If the complainant does not invoke the formal process, the Vice President of Student Learning or his/her designee will determine whether to place a copy of the interview form in the student or personnel file belonging to the accused in accordance with applicable procedures.
- This informal procedure shall be completed within thirty (30) days of reporting of the original complaint. (See Information Flow Chart page 16.)

Formal Complaint Procedure

The District has established the following formal complaint procedure to resolve charges of unlawful discrimination, including sexual harassment. The goal of this procedure is to formally investigate and resolve alleged charges which have not been resolved informally and, if necessary, to serve as a basis for prompt corrective action.

- The complaint shall be filed with the Vice President of Student Learning or his/her designee.
- The complaint shall be filed in a manner prescribed by the Yosemite

Community College District and the State Chancellor's Office.

- C. The complaint shall be filed within one year of the date of the alleged unlawful discrimination, or within one year of the date on which the complainant knew or should have known of the facts underlying the allegations of unlawful discrimination. The complaint may be filed any time after the informal process has ended but not later than thirty (30) days from initiating the informal complaint procedure.
- D. When the Vice President of Student Learning or his/her designee receives a defective complaint, he/she shall notify the complainant of the defect.
- E. Upon receiving a properly filed complaint, the Vice President of Student Learning or his/her designee will begin an impartial fact-finding investigation of the complaint. The

complainant will be notified that the investigation has been initiated.

In addition, the Vice President of Student Learning or his/her designee will notify the accused that an assessment of the accuracy of the allegations has not yet been made, that the complaint will be investigated, that the accused will be provided an opportunity to present his/her side of the matter, and that any conduct that could be viewed as retaliatory against the complainant or any witnesses must be avoided.

H. When the investigation is complete, the College will attempt to resolve the complaint and will take such action as it deems necessary to correct the effects of the unlawful discrimination and to ensure that no unlawful discrimination will occur in the District.

I. At the conclusion of the investigation, the Vice President of Student Learning or his/her designee shall prepare a written report that includes:

1. a description of the circumstances giving rise to the complaint;
2. a summary of the testimony from witnesses;
3. an analysis of any relevant data collected during the investigation;

 - a. the determination of the District Chancellor or his/her designee as to whether discrimination did or did not occur;
 - b. a description of actions taken, if any, to prevent similar problems from occurring in the future;
 - c. the proposed resolution of the complaint; and
 - d. the complainant's and the accused's right to appeal to the District Governing Board. (See Information Flow Chart page 16.)

Final District Decision

The District has adopted the following appeal procedure to review the determination of the District Chancellor regarding complaints of alleged discrimination.

A complainant or an accused who is not satisfied with the determination made by the District Chancellor may appeal to the Governing Board by submitting a written appeal to the District Chancellor's Office within fifteen (15) days of the determination. - C. Within forty-five (45) days of receipt of the appeal, the Governing Board will issue a final District decision. If a decision is not issued within forty-five (45) days, the District Chancellor's decision will become the final decision.
- D. A copy of the final decision shall be forwarded to the complainant and the accused, along with:

1. In a case not involving employment discrimination, the complainant has the right to appeal the District final decision by filing a written appeal with the State Chancellor within thirty (30) days after the District issues its final decision.

Student Code of Conduct

Columbia College under the Yosemite Community College District Board Policy (5500) has specified those standards of student behavior which it considers essential to its educational mission and its community life. These regulations are designed to represent reasonable standards of conduct. The Student Code of Conduct governs the behavior of students and guests on campus and at college-sponsored activities. Violations of the code may subject individuals to disciplinary action, which is consistent with the requirements of due process.

The following conduct shall constitute good cause for discipline, including but not limited to the removal, suspension or expulsion of a student.

1. Causing, attempting to cause, or threatening to cause physical injury to another person.
2. Possession, sale or otherwise furnishing any firearm, knife, explosive or other dangerous object, including but not limited to any facsimile firearm, knife or explosive is forbidden, unless, in the case of possession of any object of this type, the student has obtained written permission from a specified college representative and the college president to possess the item.
3. Unlawful possession, use, sale, offer to sell, or furnishing, or being under the influence of, any controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the California Health and Safety Code, an alcoholic beverage, or an intoxicant of any kind; or unlawful possession of, or offering, arranging or negotiating the sale of any drug paraphernalia, as defined in California Health and Safety Code Section 11014.5.
4. Committing or attempting to commit robbery or extortion.
5. Causing or attempting to cause damage to district property or to private property on campus.

7. Willful or persistent smoking in any area where smoking has been prohibited by law or by regulation of the college or the district.
8. Committing sexual harassment as defined by law or by district policies and procedures.
9. Engaging in harassing or discriminatory behavior based on race, religion, creed, color, national origin, ancestry, disability, sex (i.e., gender), marital status or sexual orientation or any other status protected by law.
10. Willful misconduct which results in injury or death to a student or to college personnel or which results in cutting, defacing, or other injury to any real or personal property owned by the district or on campus.
11. Disruptive behavior, willful disobedience, habitual profanity or vulgarity, or the open and persistent defiance of the authority of, or persistent abuse of, college personnel.
12. Cheating, plagiarism (including plagiarism in a student publication), or engaging in other academic dishonesty.
13. Dishonesty; forgery; alteration or misuse of college documents, records or identification; or knowingly furnishing false information to the district.
14. Unauthorized entry upon or use of college facilities.
15. Lewd, indecent or obscene conduct on district-owned or controlled property, or at district-sponsored or supervised functions.

16. Engaging in expression which is obscene; libelous or slanderous; or which so incites students as to create a clear and present danger of the commission of unlawful acts on college premises, or the violation of lawful district administrative procedures, or the substantial disruption of the orderly operation of the district.
17. Persistent, serious misconduct where other means of correction have failed to bring about proper conduct.
18. Obstruction or disruption of teaching, research, administration, disciplinary proceedings, or other college activities, including its public service functions, or any other authorized activities. Pagers, cellular telephones and other similar electronic devices must be turned off in classrooms and other campus sponsored events unless authorized by an appropriate faculty or staff member.

Misconduct Penalties Disciplinary Action

Violators of Student Code of Conduct are subject to the following types of disciplinary action which will be administered by appropriate College personnel.

1. **Reprimand**—A person receiving a reprimand, either oral or written, is thereby notified that continued conduct for the type described may result in formal disciplinary action against the student.
2. **Instructor Removal**—An instructor may remove a student from his/her class for the day of the misconduct and the next class meeting.
3. **Disciplinary Probation**—Formal disciplinary action may include, but is not limited to, the following:
 - a. Removal from any Associated Students (ASCC) organization office held.
 - b. Revocation of the privilege of participating in College and/or student-sponsored activities.

4. **Disciplinary Suspension**—Formal disciplinary action denying campus privileges for a specified period of time. A suspended student is not to occupy any portion of the campus and is denied all College privileges, including class attendance, and privileges noted under “Disciplinary Probation,” for a specified period of time. There shall be two classes of suspensions:

- The first “summary suspension” is to protect the school from the immediate possibility of disorder or threat to the safety of all students.
- The second “disciplinary suspension” serves as a penalty against the student as a result of the failure of his/her conduct to meet standards expected by the College.

5. **Expulsion**—Formal action taken by the Yosemite Community College District terminating a student’s privilege to attend the Colleges of the District, for disciplinary reasons.

Due Process

The student disciplinary procedure is an administrative process used to review alleged student conduct violations. Findings will be based upon a preponderance of the evidence.

The following due process procedures will be followed:

- Student will be given written or oral notice of the alleged violation.
- Student will be given an opportunity to respond to the allegations.
- The Vice President for Student Learning or designee will investigate and notify the student of the findings and disposition of the case.
- The investigation will be completed within 15 days.
- All disciplined parties will have the right to appeal.

- The student must notify, by phone or in writing, the Vice President for Student Learning within 24 hours of the notification of findings and disposition if he/she plans to appeal the decision.
- The student shall have five (5) days from the date he/she receives notice of the decision to file an appeal with the Vice President for Student Learning. Appeal forms are available in the office of the Vice President for Student Learning.
- Using the appeal form, the student must submit a concise statement based on new evidence or procedural error in interpretation of the evidence to the President of the College or designee.
- The student shall receive notice of the determination of the President of the College within 10 days. The decision of the President or designee shall be final.

The following are not appealable:

- Short-term suspension of five school days or less, and lesser sanctions.
- Short-term removal by a College instructor.
- Disciplinary probation for a period of one year or less.
- Written or verbal reprimand.

Academic Integrity as Defined by the Academic Senate at Columbia College

The Academic Senate at Columbia College has defined academic integrity as the following.

Academic integrity means honesty and responsibility in scholarship. Professors have to obey rules of honest scholarship, and so do students. Here are the basic assumptions about academic work at the Columbia College:

- Students attend Columbia College in order to learn and grow.
- Academic assignments exist for the sake of this goal.
- Grades exist to show how fully the goal is attained.
- Thus, all work and all grades should result from the student’s own effort to learn and grow. Academic work completed any other way is pointless, and grades obtained any other way are fraudulent.

Academic integrity means understanding and respecting these basic truths, without which no college can exist. Academic misconduct—“cheating”—is not just “against the rules.” It violates the assumptions at the heart of all learning. It destroys the mutual trust and respect that should exist between student and professor. Finally, it is unfair to students who earn their grades honestly.

Maintaining Academic Integrity

All faculty, administrators and some staff share the original jurisdiction for conduct violations in the areas of academic integrity.

- Academic areas may develop a statement of the application of the Academic Integrity Policy in their courses; and
- Each faculty member is encouraged to include in his/her introduction to a course:
 - A statement of the application of the Academic Integrity Policy within his/her course
 - The statement notifying students that violations of the Academic Integrity Policy will be reported.

Violations

- Cheating**—Intentionally using or attempting to use unauthorized materials, information or study aids in any academic exercise; misrepresenting or non-reporting of pertinent information in all forms of work submitted for credit or hours.
- Facilitating Academic Dishonesty**—Intentionally or knowingly helping, or attempting

to help, another to violate a provision of the institutional code of academic integrity.

- Plagiarism**—The deliberate adoption or reproduction of ideas, words or statements of another person as one’s own, without acknowledgment. This includes all group work and written assignments.

Consequences

Consequences for violation of the Academic Integrity Policy may range from partial credit to no credit on an examination or assignment.

Due Process Procedural Safeguards

Violations of this policy may also violate the Student Code of Conduct. If this occurs:

- Student shall be given notice by the faculty member in charge of the class or the activity.
- Student shall have an opportunity to respond to the allegation.
- Student shall have the right to appeal to the appropriate Dean of Instructional Services.
- Violations of the Student Code

of Conduct will be handled in accordance with the Disciplinary Action described in the Student Code of Conduct. Discipline may range from reprimand to expulsion

Important Things to Know

- No fees paid by or for a student shall be refunded for the term in which he/she is suspended.
- The student charged with a violation shall be regarded as innocent until the contrary is established by a preponderance of the evidence.
- Records of disciplinary action shall be kept in a separate file from the academic or grade records for a period of time not to exceed five years.
- If the student is a minor, the Dean of Student Services or designee shall notify the student’s parent or guardian of any disciplinary action and consequences.
*(EC 76032)
- All references in this document to “days” shall refer to days when classes are in session, excluding weekends and Fridays during the summer term.

Student Center Fee

A student center fee of \$1 per unit, to a maximum of \$10 per academic year, is assessed to be used for the renovation or new construction of a Student Center Building. During the Spring Semester of 1992, the Student Senate conducted an election and the student body voted to assess themselves a permanent, non-revocable fee. These funds may only be used for the Student Center Building. The current Student Center is located upstairs in the Manzanita Building. This is open to all students and provides an area to study, work on the computers or relax and get to know fellow students.

Student Representation Fee

Established by 2/3 vote of the student body, a \$1 fee is charged per term. The fee is used by the Associated Student Body to represent student concerns at local, state, and federal government levels. A student may for religious, political, financial or moral reasons, request a waiver of the student representation fee. Contact the Business Office for waiver procedures.

Enrollment Fee Waiver Program

You may NOT have to pay the enrollment fee if you are a California resident and:

- You are receiving TANF/ CalWORKs, SSI, GA or
- Your 2008 income was below a certain level or
- You are a dependent child of a service-connected disabled or deceased veteran
- Eligible special admit students

To find out if you qualify for a fee waiver you can obtain a simple one-page BOGFW application from the Admissions Office, Financial Aid Office, Business Office, Calaveras Center, or on the website. The completed form must be returned to the Business Office before you register.

Additionally, if you feel you are low income, but you do not qualify to

have your fees waived using the above described method, you may complete the Free Application for Federal Student Aid, also available on the Financial Aid Website. It is a more complicated application and it takes 8-12 weeks to process. But if you are found eligible for the waiver, you are entitled to request a refund of the enrollment fees that you have paid.

Financial Aid Withdrawal and Repayment Policy— 2009-2010

588.5231

Applications for admission to Columbia College are available on the college website, at the College Admissions and Records Office, high school counseling offices or by requesting a copy in writing from the College. Prospective students may access the online application at www.gocolumbia.edu and click on **connectColumbia**.

Your official transcripts for all previous college work must be received during the first semester of attendance. High school transcripts are required *only if* you have been out of school for five years or less.

Note that students are responsible for providing official documentation of previous high school and college work for evaluation of credit. These documents will become the property of Columbia College and cannot be reproduced or released for any purpose.

Be sure to submit your application as early as possible. To allow for processing, a local mailing address must be submitted prior to completion of registration.

Other College or High School Transcripts

Columbia College requires new students to submit official transcripts of coursework completed at other colleges and high schools.

1. Have the institution mail your transcripts to the Admissions & Records Office, Columbia College. Columbia College will only accept official transcripts

that are received in sealed envelopes. High school transcripts are only required if the student has been out of high school within the last five years.

- Columbia College cannot release copies of other institution's transcripts. The transcript must be obtained from the institution of origin. Students who are concurrently enrolled at Modesto Junior College may request that any transcripts on file at Columbia College from other institutions be sent to MJC. This exception is possible as both colleges in the Yosemite Community College District.

Re-Admission

Planning on returning to Columbia College after an absence of one academic year or more? If so, you need to file an application for re-admission. Transcripts are also required if you have attended another college since last attending Columbia College.

Notice of Acceptance

New and former students will receive acceptance notification. In addition, information on assessment, orientation and advisement opportunities will be furnished. All of this information is also available on the college website.

Residence Requirements

Re: Board Policy 5015; Education code 68000 et. seq., 681305; Title 5, Sections 5400 et. seq.

For tuition purposes, all new and returning students are classified either as residents or nonresidents. Residency will be determined by the College on an individual basis with the submission of each application.

California residency is determined by the length of physical presence within the state and one's intent to make California his/her permanent residence. The minimum residence requirement is one year and one day prior to the first day of the term. A residence determination date is that day immediately preceding the opening day

of instruction for any session a student proposes to attend.

Those who have resided in California for less than two years must prove *intent*, which can be established by submitting two items from the following list with your application:

- Owning or renting California residential property for personal use
- Registering to vote in California
- Paying California State Income Taxes
- Having a California Driver's License or ID card
- Registering a motor vehicle in California
- Holding an active checking and/or savings account in a California bank
- Any other proof of intent for consideration by the College.

Persons who cannot establish the minimum residence requirement as indicated above will be required to pay \$190 per unit non-resident tuition in addition to other standard student fees. Nonresident tuition is refundable upon withdrawal from classes during the refund period.

Active duty military and their dependents, who are currently residing in the state, are considered California residents. In addition, members of the armed forces, who are stationed on active duty in California may also be classified as residents.

Credentialed employees, migrant agricultural workers and their dependents may also be considered California residents.

If their visa does not preclude establishing residency in the U.S., non-citizen students may be classified as residents if they have resided in California for more than one year. INS documents must be issued one year and one day prior to the start of the semester otherwise, nonresident tuition will be charged. Examples of INS documentation include:

- Resident Alien Card*
- Permanent Resident Card*
- I-94 Form*

Visa

Passport

Temporary Resident Card.

Residency questions and classification can be appealed by writing to the Director of Admissions, Records and Assessment.

AB 540

Assembly Bill 540 (January 1, 2002) allows exemption from nonresident tuition in some circumstances. This law does not grant residency. Instead, it only exempts nonresident students from paying nonresident tuition.

If you feel that you qualify, complete a Student Affidavit for Exemption from Nonresident Tuition form. The form can be obtained from the Admissions & Records Office or on the college website.

Beginning Summer term of 2007, the Yosemite Community College Board of Trustees has waived the enrollment unit fee for special admit students. However, all students must have the Fee Waiver Application on file and will be responsible for all other fees. Contact the college Admissions Office for further college policies and procedures.

Although a student may qualify for exemption from matriculation, participation is welcomed and encouraged.

Students may challenge required participation in matriculation if they do not meet the exemption categories. The challenge must be submitted in writing to the Dean of Student Services, along with any supporting data.

Forms are available in the Counseling Office. The Dean of Student Services may request additional supporting documentation and/or a conversation with the student prior to making a decision.

Alternative Matriculation for Disabled Students

Applicants to the College with disabilities can seek alternative matriculation services, which include:

- Special assessment
- Assessment by the Learning Disability Specialist
- One-on-one orientation, advisement and development of an educational plan with Disabled Student Services Program staff

To qualify, the applicant must inform the Disabled Student Services Office about his/her disability and request the alternative matriculation program.

Additionally, he/she must submit written documentation by a professional (Physician, Psychologist, Learning Disability Specialist, etc.), verifying the disability. (YCCD Board Policy #5050)

Assessment 588.5234

Assessment is required by the California Education Code, Sec. 51006 and is intended to provide sufficient information to facilitate student success while he/she attends the College.

As one of five matriculation components, assessment includes testing to determine a person's proficiency in English and math.

Students can obtain additional copies of their assessment scores from the Director of Admissions, Records and Assessment at 588.5234. These scores, however, will not be released if the student has any funds due to the College. Obligations can be paid at the Business Office, by touch-tone phone (536.5400), or on the College website.

There are 3 test components in the assessment process. These components are reading comprehension, sentence structure and mathematics. The assessment is un-timed and fully computerized. Students receive their results and course placement recommendations immediately after completion of the assessment. Students may log onto www.collegeboard.com/student/testing/accuplacer to view sample test questions and tips for taking the assessment.

Columbia College will accept the test scores and placement results from other California Community Colleges providing the test results are no more than 3 years old. Additionally, students may use math or English courses completed with a grade of "C" or better from other accredited colleges if the course/courses were completed within the past five years and Advanced Placement scores of 3 or better to determine course placement. All of these documents must be official and must be in the office of the Director of Admissions, Records and Assessment at least 10 days prior to registration.

The testing simply helps students in choosing appropriate courses, and can also be used to satisfy certain course prerequisites. For more information, contact a counselor or Director of Admissions, Records & Assessment.

Students may obtain a copy of their assessment results by logging onto **connectColumbia**. Requests to have copies of the results mailed or faxed to other institutions must be written and signed by the student and faxed or mailed to the Admissions Office. The fee for mailing or faxing copies of the assessment scores to a student or other college is \$3.

Educational Plan 588.5109

At Columbia College, students need to have an Educational Plan on file when they have completed 15 units. This includes units completed at Columbia and units transferred in from other colleges or universities.

The Counseling Office will gladly assist with specific information on preparing your Educational Plan. After the plan has been reviewed with a counselor, it will be placed in your permanent file.

Scholarships & Awards 588.5105

Columbia College has an extensive number of scholarships and awards provided by organizations and individuals both inside and outside our community. These are publicly announced on the Scholarship forms rack in the Financial Aid Office and in the *Real People Win Scholarships* brochure available in the Financial Aid scholarship Office.

A standard application, which may be obtained from the Financial Aid website, is used to determine a student's eligibility for most of the awards. It is available starting the first day of Fall Semester; the deadline for applying is the last day of the Fall Semester. If a special application is required for a specific scholarship, it will be noted.

Selection is generally based on one or more of the following criteria: grade point average, financial need, major, units completed, participation

in extracurricular activities. Awards are given to students pursuing goals in almost every major, certificate or transfer program offered and they are available for new, continuing, returning, transferring, and part-time students.

Security and Safety 588.5167

In compliance with the federal *Clery Act*, Columbia College publishes an annual security report. The report includes campus crime statistics and college security policies. The annual report is available each October at the campus security office or online at www.gocolumbia.edu.

Columbia College Security Officers are available 24 hours each day, seven days a week, providing assistance with security, emergencies, parking, escort services, lost and found property, and general information and assistance. Several emergency telephones are available to directly connect you with a security officer. Using any campus

emergency telephone at the locations listed on the campus map, page 184, you may reach an officer by dialing:

- Campus phones: 911
- Or by pay phone: 768-7676

Security/Parking 588.5167

Parking: As authorized by California Education Code, Sec. 76360(a); a parking permit is required by anyone parking on campus. Student semester parking permits are available for purchase at the College Business Office. Daily and visitor permits are available at the College Information Booth. For more information on campus parking please refer to the pamphlet, *Columbia College Campus Parking Regulations*. The conduct of drivers, vehicles, and pedestrians on campus is governed by the *Parking and Traffic Ordinances of the Yosemite Community College District*. Security/Crime Awareness – Campus Security Officers do not have law enforcement authority. Their role is to “observe and report” only. The Crime Awareness and Campus Security Act of 1990 requires institutions to publish an *Annual Security Report*. The report includes campus crime statistics and college security policies. Academic Policies & Procedures

Academic Freedom (Faculty)

Recognizing that academic freedom is essential to the pursuit of truth in a democratic society, the district adheres to the following principles:

Faculty shall be free:

- To examine unpopular or controversial ideas to achieve course learning objectives, in discussion with students, and in academic research or publication.
- To recommend the selection of instructional materials.
- To make available library books and materials presenting all points of view.

While faculty have the right to present ideas and conclusions which they believe to be in accord with available evidence, they also have the responsibility to acknowledge the existence of different opinions and to respect the right of others to hold those views.

Reference: YCCD Board Policy 6030, Title 5, Section 51023; Accreditation Standard 2.2

Academic Freedom (Students)

The Board of Trustees believes that students have the right to listen, the right to decide, the right to choose, the right to reject, the right to express and defend individual beliefs, and that the educational purpose of the District is best served by this freedom of expression. As members of an academic community, students are encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth. Institutional procedures for achieving these purposes may vary from campus to campus, but the minimal standards of academic freedom of students are essential to the purposes for which community colleges exist.

Students are free to take reasoned exception to the data or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled. Student performance will be evaluated on a broad academic basis, not on opinions or conduct in matters unrelated to academic standards.

Reference: YCCD Board Policy 5580, Education Code Section 76067, 76120

Catalog Rights

- A student will be held responsible only for the policies and requirements designated in the catalog for the academic year in which the student completes the first credit course.
- Student's catalog rights begin with the semester a student completes the first course or courses at Columbia College as long as the student remains in continuous attendance. Continuous attendance is defined as completion of at least one credit course per academic year at Columbia College. Attendance at other colleges is not included in determining catalog rights at Columbia College. (*Exception: Attendance at another Yosemite Community College District college may be accepted.*)
- A student has only *four continuous academic years* to complete the requirements for graduation with an associate degree, Certificate of Achievement or Skills Attainment Certificate as defined in the catalog.
- A student who has not met the educational goal at the end of the four years must select a subsequent catalog and is responsible for any changes in requirements.

Unit of Credit

A unit of credit is earned on the basis of one hour of lecture-discussion per week or a minimum of three hours of laboratory per week during a semester. It is common to find courses composed of learning activities resulting in combinations of lecture-discussion, independent and tutorial study, or directed and individual laboratory experiences. In all cases, these are to be equated with the unit of credit. Columbia College operates on a semester system.

The following terms are synonymous in expressing a unit of credit: semester unit, semester hour, class hour, credit and credit hour.

Conversion of Units

To convert quarter and semester units of credit, the following methods of computation are used:

- Quarter units of credit are converted to semester units of credit by multiplying the number of quarter units by two-thirds (# of quarter units x .667 = semester unit credits).
- Semester units of credit are converted to quarter units of credit by multiplying the number of semester units by one and one-half (# of semester unit credits x 1.5 = quarter unit credits).

Prerequisites/Co-requisites/Recommended for Success

Columbia College has a prerequisite policy, Board Policy 6260, that may be found in the Office of Student Learning, located in the Manzanita Building.

- Prerequisite is a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program.
- Co-requisite is a condition of enrollment consisting of a course that a student is required to take simultaneously in order to enroll in another course.
- Recommended for success indicates preparation that a student is advised, but not required to take before enrolling in a course or program.

The course description identifies the only means by which prerequisite and co-requisite requirements can be met. "Or equivalent" in the course description refers to the prerequisite and co-requisite challenge process (*See section below*). Students should carefully consider classes that have "prerequisites" or "corequisites." Students can enroll in these classes **ONLY** if they have satisfied the prerequisite with a final grade of C or "P" (Pass) or higher.

Course Prerequisite and Co-requisite Challenge Information

A student may challenge a prerequisite or co-requisite under one or more of the criteria listed below:

The prerequisite or co-requisite is:

- Not established in accordance with district processes
- In violation of Title 5 regulations
- Either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner.

Or:

- The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or co-requisite.
- The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or co-requisite has not been made reasonably available.

Prerequisite Challenge Procedure

Contact the Admissions & Records Office to obtain a Petition for Prerequisite/Co-requisite Challenge. Submit the completed petition with documentation materials to the Admissions & Records Office. The College shall resolve any challenge within 10 working days from the time it is filed provided that the student initiates the challenge not less than two weeks prior to the beginning of the semester.

Please note that a prerequisite waiver may not exclude that course from the major requirement.

Grading System

Evaluation of student achievement is made in relation to the attainment of specific course objectives. At the beginning of a course, the instructor will explain the course objectives and basis upon which grades will be determined by one of the following symbols:

- A** – Excellent
- B** – Good
- C** – Satisfactory

- D** – Passing, less than satisfactory
- F** – Failure
- W** – Withdrawal from course
- I** – Incomplete
- P** – Pass (at least satisfactory). This grade cannot be changed to a letter grade.
- NP** – No Pass (less than satisfactory). This grade cannot be changed to a letter grade.
- IP** – In Progress (See IP section)

Satisfactory Course Completion

Satisfactory completion of a course requires a grade of C, "P" (Pass) or better.

IP (In Progress)

IP is a grade symbol for a class that is scheduled to extend beyond the end of the semester (a bridge class), e.g. course begins November 6 and ends February 1; semester ends December 18.

The student's permanent record will reflect an IP for the semester in which the class began.

Final grade and units for a bridge class will be issued during the semester in which a class ends.

Challenging Grades

Education Code 76224 states: When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of a mistake, fraud, bad faith, or incompetency, shall be final.

The following procedure will be followed when a student wishes to complain about a grade.

1. The student shall meet with the instructor to discuss the grade.
2. If the issue is not resolved, and the student believes that the grade is based on mistake, fraud, bad faith, or incompetency, he/she may complain in writing to the appropriate Dean for the discipline involved. Student complaint forms for written complaints are

available in the Dean's Offices in the Manzanita Building.

3. The complaint will be reviewed and the student will be notified in writing of the decision.
4. Appeals may be made to the Vice President of Student Learning.
5. The decision of the Vice President of Student Learning or his/her designee is final.
6. A student challenge to a final grade received in a class must occur within two academic years from the time the grade is received,

Adding a Course

Prior to the start of the semester, students may add a class by using the touch-tone telephone system (536.5400), online at: www.gocolumbia.edu (see current Class Schedule for instructions), at the Admissions & Records, or at the Calaveras Center.

To add a class after the first day of instruction, students must complete an "Add" Form which may be obtained from Admissions & Records. Contact the Admissions & Records Office for specific course deadlines.

All Add Forms processed by the Admissions & Records Office require the student to present a picture ID.

Students who are on a probationary or dismissal status must have a counselor's signature on the add slip and must register at the Admissions Office. Students attempting to register for over 18 units during a fall or spring semester, or 12 units during a summer session, must have a counselor's signature on the add slip and must register for these units at the Admissions & Records Office.

Course Auditing

Course auditing is available to individuals who have completed the allowable number of enrollments in a specific course. Students enrolled in classes to receive credit for ten (10) or more semester credit units shall not be charged a fee to audit three or fewer semester units per semester. Call the Business Office at 588.5114

for information on the cost to audit a course.

No student auditing a course shall be permitted to change his or her enrollment to receive credit or a grade for the course. Enrollment priority enrollment shall be given to students enrolled in the course for credit toward a degree, certificate or Skills Attainment Certificate. Please contact the Admissions & Records Office for further information and to obtain the required form.

(YCCD board Policy #6070; Education Code Section #76370)

Dropping a Course

To drop a course, the student may use the touch-tone telephone system (536.5400), go online at www.gocolumbia.edu (see current Class Schedule for instructions), or submit a Drop Slip to the Admissions & Records Office or Calaveras Center. All drops processed at the Admissions & Records Office and Calaveras Center require the student to present a picture ID. Students who are on a probationary or dismissal status must have a counselor's signature on the Drop Slip and must drop the course in person at the Admissions & Records office on campus or at the Calaveras Center.

- Course Deadlines: (See a copy of your Class Schedule for exact date)
- Fall Semester Classes—No grade or course title will appear on the official transcript (No record of registration).
- From the first day of the fifth week to 75% of the semester a W symbol will appear indicating withdrawn.
- No student drops are allowed after 75% of the term—Possible grade of F will appear on the official transcript.

For less than full semester classes:

Copies of the student class schedule contain all important dates for each course that the student has enrolled in. Copies of the schedule may be obtained on the college website and at the Admissions & Record office.

It is the student's responsibility to drop. Web and touchtone telephone transactions can be audited to determine the date and time and method used to drop a class. Registration, add and drop slips submitted at the Admissions & Records Office are maintained for two years.

Please see *Fee Refund Policy* on page 20.

Military Withdrawal

A student called for active duty may receive a military withdrawal at any time during the semester. Military withdrawals will not be factored into progress probation. To drop classes using a military withdrawal option, the student must submit a copy of military activation papers along with a drop form for each class to the Admissions Office.

Repetition of Courses

- Only designated courses may be repeated for credit. See course descriptions for limitation on course repeatability. Registration will be disallowed when a student reaches the limit.
- Any course in which a student has earned a **NP** or **W** may be repeated for college credit.
- Special classes for disabled students and adaptive physical education classes for the disabled are subject to additional repetitions in accordance with Title 5 Section 56029.
- Courses may be repeated where substandard work has not been recorded if the course is needed to meet legally mandated training requirements. Students must petition to enroll, providing documentation verifying that the course is required or mandated for their job.
- Students who have successfully completed a course the allowable number of times for credit may take the course under the category of **AUDITING**. All credit students will be given first priority and auditors will be admitted based on available space only after the first class meeting.

Auditors will be required to adhere to all course and college policies, procedures, requirements and regulations. For more information concerning the guidelines and fees, contact the college Admissions and Records Office.

Course Withdrawal and Repetition Restrictions

Title V (sections 55040-55045) changes effective Fall 2009 will have an impact on students' ability to repeat courses and the ability to enroll in a course after numerous withdrawals. Students are advised to see a counselor to determine how these new regulations will affect their educational planning.

Repetition of Course for Improvement of Grade

In conformance with Title 5, Sections 58161, 55040 and 55041, of the California Administrative Code, an individual may repeat a course under any of the following conditions:

Courses may be repeated one time for improvement of grade under any of these conditions:

- The student's previous grade is at least in part due to verified extenuating circumstances beyond the control of the student.
- A student who has earned a grade of **NP**, **D** or **F** in a course may repeat the course one time for improvement of grade. Only the units and grade earned upon repetition will be computed in the overall GPA and units earned.
- A considerable lapse of time has occurred since the student completed a class. The student must submit a petition to the appropriate dean. Petitions are available in the Admissions & Records office.
- When repeating a course in which a **D** was received, the grade earned in the repeated course and grade points will be recorded, but no additional units for the course will be allowed.
- When repeating a course in which an **F** grade was received, the grade,

grade points and units earned in the repeated course will be recorded.

- If the course is repeated at another institution, the student must provide the Transcript Evaluator with an official transcript from the transfer institution. If the course is determined equivalent to the Columbia College course, the repetition notation will appear on the Columbia College transcript.
- Courses taken "Credit by Examination" may NOT be repeated.

Remedial Coursework Limit

Students may not receive credit for more than 30 units of remedial coursework, i.e., non-degree-applicable basic skills courses. However, this limit shall not apply to the following students:

1. Students identified by a college in the district as having a learning disability.
2. Students enrolled in an English as a Second Language course.

Waivers to this limitation may be granted when a student shows significant, measurable progress toward the development of skills appropriate to his/her enrollment in degree-applicable credit courses.

Reference: Title 5, Section 55035.

Health and Human Performance Enrollment Restriction

In compliance with Title V regulation number 76002, enrollment by high school students in Health and Human Performance activity sections is restricted to a maximum of 10% of the total allowable enrollment. (For example: If a section will allow enrollment of 30 students, only 3 of the thirty can be high school special admit students). When the 10% limit is reached all further high school students will be blocked from registration and directed to attempt to enroll in another section of the course or another activity course.

Incomplete Grades

- An incomplete grade **I** may be given for an unforeseeable emergency and justifiable reason if a student does not complete all requirements of a course.
- An incomplete can be issued only when the student is lacking a small amount of work.
- Responsibility for removal of an incomplete grade within the time granted by the instructor rests with the student.
- An incomplete grade must be made up by the date designated by the instructor on the Incomplete Grade form, but in no case later than *one year* from the term in which the **I** was issued. The student will receive a copy of the Incomplete Grade form.
- At the end of the time designated by the instructor, or no longer than one year, if the student has not completed the conditions for removal, the **I** will be changed to the default grade indicated on the Incomplete Grade form.
- Instructors will submit to the Admissions & Records Office a written record of the conditions for removal of the **I** and the default grade to be assigned in lieu of its removal. A copy of this record and related instructions will be provided to the student.
- When the student has completed the coursework, the instructor will assign the appropriate grade and notify the Admissions & Records Office. The incomplete grade **I** will be replaced with the appropriate grade and the student will receive notification of the grade.
- Students are not eligible for a degree, Certificate of Achievement or Skills Attainment Certificate if one or more of the required classes has a notation of incomplete.

Academic Renewal

(Title 5, Section 55044; YCCD Board Policy 5060)

Subject to the following conditions, up to 24 units of substandard grades (**D's**, **F's** and **NP's**) from no more than two semesters or 36 units from three quarters, (taken at any accredited college or university), may be alleviated from computation of the grade point average at Columbia College:

1. Since completion of the work to be alleviated, the student must have completed a minimum of 15 semester units with at least a 3.0 cumulative GPA, 30 semester units with at least a 2.5 cumulative GPA, or 45 semester units with at least a 2.0 cumulative GPA at any accredited college or university. Renewal will not be granted if there are any grades of D or F or NP since the completion of the work to be alleviated even if the course has been repeated for improvement of grade.
2. A minimum of four semesters or six quarters must have elapsed since completion of the work to be alleviated. (Summer session is not counted toward the required semesters.)
3. Any student not meeting all the requirements of items number one and number two may petition the Academic Requirements Review Committee.
4. The student's permanent record will be annotated in such a way that all work remains legible ensuring a true and complete academic history. Columbia College will honor similar policies of accredited colleges and universities, but other transfer institutions may reject academic renewal action.
5. The student must submit a request for Academic Renewal Evaluation to the Director of Admissions, Records and Assessment. Forms are available in the Admissions & Records Office.
6. A repeated course that has resulted in a satisfactory grade cannot be removed.

99/199 Independent Study Courses

Independent Study courses are offered to give students an opportunity to independently research specialized areas not available as regular course offerings of the College.

- Registration is restricted to one Independent Study course per semester.
- An overall maximum of 7 units of credit completed will be allowed for Independent Study.

Students who intend to transfer are advised that Independent Study credit will count for elective credit only at the CSU campuses. - A student has 30% of the length of the course to rescind the written form.
- Student performance equivalent to **A, B, or C** work will equate to a Pass (**P**) grade.
- Student performance equivalent to **D or F** work will equate to a No-Pass (**NP**) grade.
- A **P** or **NP** grade will be recorded on a student's transcript.
- A **P** or **NP** grade may not be converted to a letter grade.
- Pass (**P**) units may not be applied toward a student's major for the Associate Degree nor toward completion of a certificate program or Skills Attainment Certificate unless the course is offered for **P/NP** grading only.
- Pass (**P**) units are accepted toward completion of the general education requirements for the Associate Degree.
- **P/NP** units are *not* computed in determining a student's grade point average at Columbia College.
- Units attempted for which **NP** is recorded are counted in determining progress probation and progress dismissal.
- The maximum number of credit semester units, earned under the **P/NP** grading option, that may be counted toward the 60 unit requirement for an Associate Degree is **14**.
- Courses offered for **P/NP** grading only are excluded from the

maximum of fourteen units counted toward the Associate Degree.

- Students may only opt for **P/NP** grading in one class per semester.
- For courses designated as **P/NP** grading only, there is no limit to the number of courses in which enrollment is allowed each semester.
- A student can obtain the Pass/No Pass grading form on the web at www.gocolumbia.edu, from the Admissions & Records Office, or the Calaveras Center. The form must be returned to the Admissions Office on or prior to the deadline. Mailed or faxed forms received after the deadline will not be accepted.
- Exception to the **P/NP** standards must be petitioned to the Academic Requirements Review Committee.

Credit by Examination (Course Challenge)

A student may challenge certain specifically designated courses by examination and obtain credit. Grades and grade points are entered on the student's transcript of record in the same manner as for regular courses of instruction. The intent of this provision is to enable students to pursue courses of study at an accelerated rate. In addition, it recognizes training or experience for which credit or advanced standing was not previously granted.

- A student may not take a course by examination if that student has already completed a more advanced course in the subject matter unless approved by the Academic Requirements Review Committee.
- Courses taken through Credit by Examination may not be counted as meeting the residence requirement for a degree. (*Title 5, Sec. 55753*)
- Courses taken through Credit by Examination may not be considered as part of the student's program for enrollment verification purposes.
- A student taking a course by examination will be charged the regularly established enrollment fee per unit.

No credit will be awarded for developmental or skills classes, upper division courses, or extension courses.

Columbia College does not evaluate international transcripts. Lower division courses will be accepted if recommended by the Credentials Evaluation Service, Inc., P.O. Box 66940, Los Angeles, CA 90066, or the Foreign Educational Document Services, P.O. Box 4091, Stockton, CA 95201. The cost of the evaluation is the responsibility of the student.

In accordance with District policy, official college transcripts received by Columbia College will be evaluated for college credit. Transcripts received become the property of Columbia College.

Credit for Military Service

Armed forces personnel or veterans with a minimum of one year of satisfactory service may receive:

- Two semester units of elective credit and waive institutional physical activity requirements for graduation.
- Credit for military service schools in accordance with credit recommendations published by the American Council on Education.
- Credit for certain USAFI lower division college level courses. Provisions for granting credit to armed forces personnel and veterans are subject to the following conditions:
 - At least 12 semester units of work must be completed at Columbia College before a student may receive credit.
 - Credit will not be granted for military service or military service schools where comparable units have been earned in courses previously taken.
 - A maximum of 20 units of military coursework including the 2 units awarded for the physical activity graduation requirement will be accepted as transfer credit.
 - Credit granted to armed forces personnel and veterans by another institution is subject to re-evaluation by Columbia College.

Academic Requirements Review Committee

A petition process is available to students through the Academic Requirements Review Committee. Should there be a question regarding course waivers, substitution, or exceptions to academic standards established by the College, students may petition for review to this committee. Contact the Director of Admissions, Records and Assessment for procedures.

Classification of Students

While the minimum full-time program that will qualify a student for graduation in two years is 15 units per semester, the following classifications have been established:

Full-time

Registered for 12 or more units per semester

Freshman

Fewer than 30 degree or transfer units completed

Sophomore

30 or more degree or transfer units completed

Financial Aid—Twelve units is considered to be full-time status for students enrolled Summer, Fall or Spring.

Total units required for completion of an Associate in Arts, Associate in Science or Associate in Science (Occupational Education) Degree, is 60 units. Units earned in Skills Development classes (Courses numbered 200 and above) are not counted as part of this 60 unit requirement.

Attendance Policy

Instructors establish attendance policies for their classes and inform students about attendance requirements in a course syllabus. Students are responsible for making arrangements with their instructors to complete all coursework missed.

An instructor has the prerogative to lower a student's grade due to a student's lack of participation in class.

Absence from the first class meeting may cancel registration in the course. An instructor may drop a student if the student is not in attendance on the first day of class.

Be sure to check the course syllabus (distributed at the beginning of each course), or contact your instructor! Remember, you're in charge—it is your responsibility to prepare for and attend class.

Student Load

A student who decides to carry more than 18 units during the fall or spring term, or 12 units during the summer session, must secure written approval from a counselor or the Dean of Student Services. Students on progress or academic probation will be limited to a unit load established by the Dean of Student Services.

Final Examinations

Students are responsible for taking final examinations at the time scheduled unless prior arrangements are made with the instructor.

Final grades are considered permanent. The determination of instructor issued grades are final in the absence of mistake, fraud, bad faith, or incompetency.

Scholastic Honors

For Graduation: Graduating students who have earned a cumulative Grade Point Average of 3.75 or better in all degree applicable and transferable college work are awarded the Associate Degree With Distinction. Students whose cumulative Grade Point Average is between 3.50 and 3.74 are awarded the Associate Degree With Honors.

By Term: Students who complete a minimum of 12 degree applicable units in a semester with a GPA of 3.5 and no grade below a **C** are awarded "Dean's List" for that particular semester. This honor becomes a part of the official academic record as it appears on the official academic transcript below the semester the honor was achieved.

Satisfactory Progress

A student whose cumulative Grade Point Average is 2.0 (**C** average) or better is scholastically in good standing. All units and grade points earned at Columbia College are counted on a cumulative basis. The method of computing Grade Point Averages follows.

Grade Reports

Report cards are not issued by the college. Students obtain their final semester grades on the College website at www.gocolumbia.edu approximately 10 working days after the semester ends. Additionally, students may obtain an unofficial transcript containing all classes and grades completed at Columbia College since 1985 on the college website. All outstanding obligations must be cleared to obtain transcripts, access grades and obtain placement test results.

Grading Scale

A	–	4 grade points per unit
B	–	3 grade points per unit
C	–	2 grade points per unit
D	–	1 grade point per unit
F	–	0 grade points per unit

Not included in computing GPA, but may be used in determining progress probation and dismissal:

W	–	Withdrawal
I	–	Incomplete
P	–	Pass
NP	–	No Pass
IP	–	In Progress

Grade Point Average

The grade point average (GPA) is determined by the following formula:

$$\text{GPA} = \frac{\text{Total Grade Points}}{\text{Total Units Attempted}}$$

Example: A student who earns five units of **A**, four units of **B**, three units of **C**, two units of **D**, and two units of **F** would compute GPA as follows:

5 units	A x 4 =	20 grade points
4 units	B x 3 =	12 grade points
3 units	C x 2 =	6 grade points
2 units	D x 1 =	2 grade points
2 units	F x 0 =	0 grade points
16 units		40 grade points

$$\text{GPA} = \frac{40 \text{ Grade Points}}{16 \text{ Units Attempted}} = 2.50$$

Units which are assigned for grades of **W**, **I**, **P**, **NP**, or **IP** are not counted in computing the grade point average but may be used in determining progress probation and dismissal.

Grades earned in nondegree applicable courses will not be included in the calculation of a student's units earned and grade point average when determining eligibility for a degree.

Probation & Dismissal for Academic Deficiencies

Academic Deficiencies

The purpose of Academic Probation and Dismissal at Columbia College is to ensure that students who are deficient in scholastic achievement, on the basis of either cumulative or semester grade point average (GPA), will receive special counseling and advisement. Computation of the GPA is based on all units attempted at Columbia College excluding those taken on a Credit/No Credit basis.

Academic Probation Status

After having attempted a minimum of 12 semester units at Columbia College, a student shall be placed on Academic Probation status for the semester following any term in which his/her GPA falls below 2.0.

Academic Dismissal Status

The third consecutive semester that a student fails to maintain a 2.0 cumulative GPA, the student is placed on academic dismissal status. A student will also be placed on Academic Dismissal if, while on academic probation, his/her cumulative GPA falls below 1.75.

Progress Deficiencies

The purpose of Progress Probation and Dismissal status at Columbia College is to ensure that students who fail to complete a majority of the courses they attempt will receive special counseling and advisement.

Progress Probation Status

After having enrolled in a total of at least 12 semester units at Columbia College, a student shall be placed on Progress Probation status for the semester following any term in which grades of

W, **I** and **NP** (No Pass) are recorded for 50% or more of all units enrolled.

Progress Dismissal Status

A student will be placed on Progress Dismissal status if that student is on Progress Probation for two consecutive semesters.

Students who are on Academic or Progress Probation/Dismissal are required to do the following:

1. Obtain written approval from a counselor prior to registration. Registration must be done at the Admissions & Records Office only.
2. Complete an Academic/Progress Probation/Dismissal Contract with a counselor of their choice preferably prior to the start of the term, and no later than the first week of the term.
3. Comply with the following unit limitation:
 - Probation Status:** Enrollment limit of 12 units maximum per term
 - Dismissal Status:** Enrollment limit of 8 units maximum per term
4. Enroll in and successfully complete Guidance 100, College Survival or, if applicable, another guidance course as per counselor recommendation. Note: These units are included in the unit limitation above.
5. Request that all current instructors complete a monthly Student Academic Performance Report form.
6. Take the completed form to counseling meetings with assigned counselor.

Academic Probation and Dismissal status will be noted on the student's permanent record.

The College may disqualify a student on Academic Dismissal or Progress Dismissal from enrolling in courses for a period of one year if, in the judgment of the counselor and the Dean of Student Services, the student is not making appropriate progress after being placed in either status. A disqualified student may be readmitted by special petition to the Dean of Student Services. See *Reinstatement After Disqualification*.

Reinstatement after Disqualification

A disqualified student may not be reinstated under the admissions provision until one semester from the date of disqualification. If the GPA of a student readmitted after disqualification falls below 2.0 for the following semester, the student may be permanently disqualified.

In the event of disqualification a student may petition for readmission on the basis of the following circumstances that might warrant an exception:

- Evidence of consistent improvement in the student's record.
- A change from one major to a field of study more appropriate to the student.
- Circumstance in the personal life of the student which the counselor of the student believes may have been of sufficient gravity to adversely affect the performance of the student.
- The recommendation of the student's physician that the continuance in college would be of sufficient therapeutic benefit to warrant the granting of an additional opportunity.

If a student has been disqualified and feels that there are extenuating circumstances worthy of consideration, a request in writing may be made to the Dean of Student Services that the one semester period of dismissal be waived.

Withdrawal from College

A student wishing to withdraw from the College is responsible for dropping all classes by touch-tone telephone, on the College website or by completing the drop form at the Admissions & Records Office or the Calaveras Center. Failure to do so may result in **F** grades recorded on the student's transcript.

Graduation & Transfer Requirements

Columbia College will confer an Associate in Arts, Associate in Science, or Associate in Science (Occupational Education) Degree upon completion of the following requirements. The Associate in Arts Degree is earned in areas such as Fine Arts, Humanities, Social and Behavioral Science. The Associate in Science Degree is awarded in Science and Technical fields. The Associate in Science Occupational Education Degree is earned in occupational programs that provide students with skills and training for immediate entry into the workforce.

1. **Total Units:** Satisfactory completion of 60 degree-applicable semester units from courses numbered 1-199, of which 12 must be completed at Columbia College. Units earned in remedial and Skills Development unit courses do not count in the 60 unit requirement (courses numbered 200 and above).
2. **Catalog Rights:** For students entering Columbia College for the first time in summer 2009, fall 2009 or spring 2010, the degree requirements are valid through 2012-13. Students taking more than four years of continuous enrollment to complete a degree will no longer have

rights to the 2009-10 catalog. Consult a counselor for assistance.

3. **Scholarship:** A cumulative Grade Point Average of not less than 2.0 (C average) and no grade lower than C in major classes and General Education areas A.1, A.2, A.3 and B.4.
4. **Major:** Satisfactory completion of any AA/AS/AS(OE) major listed on pages 58-76. Students completing these degree majors will have completed at least 18 units in a single discipline or related discipline (*Title 5 section 55806*). All courses in the major must be completed with a C or better. Pass (P) grades are not accepted unless a course in the major is pass/no pass grading. More than one Associate Degree may be awarded to a student who completes all applicable requirements as listed above plus 12 extra units (72 or more total semester units). A course may only be used to meet the requirements for two different majors when no other course selections are available and the course is required in both majors. The same catalog year must

be used when applying for multiple degrees.

5. **General Education Breadth Requirements:** Satisfactory completion of each Area of General Education "A" through "E", by choosing suitable courses from those listed under each Area on pages 53-54. Courses in areas A.1, A.2, A.3 and B.4 must be completed with a grade of C or better. Students wishing to transfer to a California State University may follow the requirements listed in the right-hand column. Students who do not expect to transfer, but wish to graduate from Columbia College with the AA, AS, or AS (OE) Degree should follow the requirements listed in the appropriate left-hand column. The courses suitable to satisfy both patterns are listed in the center column. Transfer students are encouraged to satisfy both patterns at the same time by careful selection of courses, in order to graduate with the AA, AS, or AS (OE) Degree as well as transfer to a CSU campus. CSU/UC transfer students should refer to pages 51-54 for an alternative method of completing transferable General Education Requirements.

6. **Competency Requirements:** State Law mandates that students earning the Associate Degree must meet competency requirements in reading, composition, and mathematics. These requirements may be met by completing the following courses with a grade of C or better:

ENGL 1A, Reading and Composition: Beginning

MATH 104, Algebra II: Fundamentals, or any mathematics course of a higher level than Math 104, Algebra II.

They may also be met through completion of a credit by examination with a grade of C or better.

MATH 106: Introduction to Mathematical Issues

7. **Institutional Requirement:** Two physical activity courses under Health & Human Performance are required. These courses are in addition to Area E of the General Education Breadth pattern.

Supplementary Notes

1. These requirements for graduation and General Education apply to Associate Degree and CSU transfer students entering Columbia College for the first time in Fall Semester 2008, and are valid through the 2011-12 academic year. Students continuously enrolled may continue to follow their older catalog, but those taking more than four years of continuous attendance to graduate must use graduation requirements not older than four years.
2. When a student petitions for graduation they may choose to use a more current catalog for all graduation requirements. However, once a student has selected a catalog, they must retain this catalog for all degrees and certificates awarded during the academic year.
3. Request for Waiver or Substitution: Request for waiver or substitution of any graduation requirement must be petitioned to the Academic Requirements Review Committee.
4. Double-counting units: Courses used to satisfy General Education Breadth Requirements may also be used to satisfy major requirements for the Associate Degree.
5. Columbia College will automatically send a Lower Division General Education Certification when a student requests his/her transcript to be sent to a CSU campus.

Notice of Intent to Graduate or Certificate Completion

The semester prior to completion of a degree, Certificate of Achievement, or Skills Attainment Certificate, students must obtain a petition of completion available on the college website at www.gocolumbia.edu, from the Admissions and Records or Counseling Office.

The student must then schedule an appointment with a college counselor who will review the student's academic history to determine if in fact they are potentially eligible for completion of the award during the following semester. If the counselor determines that in fact the student will be eligible for the award, the counselor will sign the petition and the student must then submit the petition to the evaluator located in the Admissions and Records Office.

Degrees, Certificate of Achievements, and Skills Attainment Certificate may be conferred at the culmination of the summer, fall or spring terms. Notation of the completed degree or certificate of achievement and the date that the award was conferred will appear on the student's official academic transcript. The Skills Attainment Certificate award will NOT appear on the official academic transcript. Diplomas are only available at the culmination of the spring semester of each academic year. Certificates of Achievement will be mailed to students after the final evaluation is complete.

Commencement-Graduation Ceremony for Associate's Degrees

At the culmination of each academic year Columbia College holds a commencement ceremony to honor those students who have completed a degree.

To be eligible to participate in the ceremony, a student must have all degree requirements completed by the end of the spring semester.

Transfer Requirements to a California State University

Columbia College will send certification of General Education Breadth Requirements to the California State University campus to which the student transfers. Full certification consists of not less than 39 semester units from Areas "A" through "E". In addition, the following transfer requirements and information apply (*See pages 46-50, 53-54*).

- Total Units:** Satisfactory completion of 60 to 70 transferable semester units from courses numbered 1-99. If you wish to transfer with fewer than 60 transferable units, you must submit satisfactory test scores from either the Scholastic Aptitude Test (SAT) or American College Testing Program (ACT). For possible exemption from ACT and SAT tests, see the catalog of the college to which student plans to transfer. Transfer requirements vary from campus to campus within both CSU and UC systems. You are required to complete 60 transferable units in order to attain full junior status upon transfer. Contact a counselor for specific requirements relative to your transfer choice.
- Scholarship:** A cumulative Grade Point Average of not less than 2.0 (C average).
- Major:** Satisfactory completion of lower division prerequisites for the BA/BS major listed in an articulation agreement or the catalog of the California State University transfer campus.
- General Education Breadth Requirements:** Satisfactory completion of each Area of General Education "A" through "E", by choosing suitable courses from those listed under each Area on pages 53-54. Students wishing to transfer to a California State University may follow the requirements listed in the right-hand column. Students who do not expect to transfer, but wish to graduate from Columbia College with the AA, AS, or AS (OE) Degree, should follow the requirements listed in the left-hand column. The courses suitable to satisfy both patterns are listed in the center column. Transfer students are encouraged to satisfy both patterns at the same time by careful selection of courses, in order to graduate with the AA, AS, or AS (OE) Degree as well as transfer to a CSU campus. CSU/UC transfer students should refer to pages 46-50 for further information.

Supplementary Notes

- Transfer students also have the option of completing the Intersegmental General Education Transfer Curriculum (IGETC) instead of the General Education requirements listed here. *Completion of IGETC will permit a student to transfer to either a CSU or UC campus without the need, after transfer, to take additional lower-division general education university requirements. See the current catalog (Pages 51-52) and a counselor for assistance.*
- California law includes a requirement in U. S. History and Federal, State and Local Government for the CSU transfer pursuing the BA/BS Degree. Completion of History 16 or 17 and Political Science 10 from Area D will meet this requirement. Some CSU campuses place the U.S. History and government requirement outside the 39 unit GE Certification while others include it within the 39 units.
- Columbia College will automatically send a fully or partially completed Lower Division General Education Certification when a student requests his/her transcript be sent to any CSU campus. The alternate General Education pattern, Intersegmental General Education Transfer Curriculum (IGETC), (See pages 51-52) may be used in lieu of the CSU GE Pattern for students in most majors who are unsure of whether they want to transfer to a CSU or a UC. The IGETC pattern cannot be used if three or more areas are incomplete. A written request to the Admissions & Records Office must be made before an IGETC Certification will be completed and sent to your transfer UC or CSU campus.

Transfer Requirements

Lower Division Transfer Requirements for Public California Four-Year Colleges & Universities

The Lower Division Transfer Patterns (LDTP) is a program sponsored by the California State University (CSU) and supported by the California Community Colleges that presents potential transfer students with the most direct path to a bachelor's degree in the CSU system. Community college students who elect to follow the LDTP option will receive the highest priority for admission to a CSU campus. Students will be asked to complete successfully a specified set of general education courses and major courses that will be common to all CSU campuses offering that major, and they will be asked to complete successfully an additional set of courses identified by the particular CSU campus named in the LDTP agreement.

For more information on the CSU LDTP contact Columbia College Transfer Center at 209.588.5271 or 209.588.5125.

CSU Admission

As an Undergraduate Transfer (Transfer Requirements)—You will qualify for admission as a transfer student if you have a grade point average of 2.0 (C) or better in Area A and B, are in good standing at the last college or university attended, and meet any of the following standards:

- You will meet the freshman admission requirements (*courses and tests scores*) in effect for the term to which you are applying. (See *Admissions Application: "Freshmen Requirements" section*)
- You were eligible as a freshman at the time of high school graduation and have been in continuous attendance in an accredited college since high school graduation.
- You were eligible as a freshman at the time of high school graduation except for the subject requirements, have made up the missing subjects at a high school or college, and have been in continuous attendance in a accredited college since high school graduation.
- You have completed at least 60 transferable semester (90 quarter) units. Nonresidents must have a 2.4 grade point average or better. *Full junior status requires 60 transferable semester units.*
- You have completed at least 30 semester units of college coursework with a grade of C or

better in each course to be selected from courses in English, arts and humanities, social science, science and mathematics at a level at least equivalent to courses that meet general education requirements. The 30 units must include all of the general education requirements in oral communication in the English language and critical thinking (*at least 9 semester units*) and the requirement in mathematics/quantitative reasoning (*usually 3 semester units*) or the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication, critical thinking, oral communication and mathematical concepts and quantitative reasoning.

- Students transferring with full certification of lower division general education requirements are *assured* that they have met 39 of the 48 unit minimum requirements for the Bachelors Degree. Students transferring without certification of general education must complete the pattern of courses required of "native" students as outlined in the catalog of the particular state university. The CSU General Education Breadth Requirements (See pgs. 47-48) and the Intersegmental General Education Transfer Curriculum (IGETC, pgs. 45-46) are the two patterns of courses which Columbia College uses to certify that the student has met the required minimum semester units of general education.

Transcripts—Request that official transcripts be sent directly from all colleges or universities previously attended even if there is no applicable or completed coursework. Transcripts must be received in sealed envelopes from each institution attended. You should keep personal copies of all transcripts and test scores for academic advising sessions and to complete the admission application.

If transferring with fewer than 60 transferable semester (90 quarter) units of study, you must also submit your high

school transcript. Applicants with 60 or more transferable semester units may be asked to submit high school transcripts if admissibility cannot be determined by the college or university transcripts.

Test Scores—Freshman and transfer applicants who have fewer than 60 semester or 90 quarter units of transferable college credit must submit scores, unless exempt from either the Scholastic Assessment Test (SAT I) of the College Board or the American College Testing Program (ACT).

If you are applying to an *impacted program* and are required to submit test scores, you should take the test no later than early December if applying for fall admission or no later than November if applying to San Luis Obispo. Test scores are also used for advising and placement purposes. Registration forms and dates for the SAT I or ACT are available from high school or college counselors or from a CSU campus testing office. Or you may write to or call:

The College Board (SAT I)
 Registration Unit
 P.O. Box 592, Princeton, NJ 08541
 609.771.7588

American College Testing Program (ACT)
 Registration Unit
 P.O. Box 168, Iowa City, IA 52240
 319.337.1270

TOEFL Requirement—All undergraduate applicants, regardless of citizenship, who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction must present a score of 480 or above on the Test of English as a Foreign Language (TOEFL).

Required Placement Tests—The CSU requires new students to be tested in English (*English Placement Test-EPT*) and mathematics (*Entry Level Mathematics Test-ELM*) as soon as possible after they are admitted. These are not admission tests but determine eligibility to enroll in specific courses. Completion of specified English and mathematics courses taken at the community college level may exempt you from these tests.

Immunization—All new and readmitted students born after January 1, 1957, will be notified of the requirement to present proof of measles and rubella immunizations. This is not an admission requirement, but is required of students by the beginning of their second term of enrollment in CSU. Proof of measles and rubella immunizations is also required for certain groups of enrolled students who have increased exposure to these diseases.

Health Screening—Students admitted to California Maritime Academy will be required to have a complete physical examination prior to entry to determine qualifications for a merchant marine license. Cal Maritime will provide the necessary physical examination form.

Educational Opportunity Program (EOP) Admission Requirements—Each CSU campus has an Educational Opportunity Program for low-income undergraduate students who are disadvantaged because of their economic or educational background. EOP serves California residents who do not meet regular admission criteria, as well as those who qualify for regular admission, if they have a history of low income and need academic and financial assistance.

If you wish to be considered for admission through EOP, you must so indicate on the application. In addition, you must complete and submit the forms included in the EOP Information and Supplementary Application booklet. The EOP booklet is available at each CSU campus EOP office and the Columbia College EOPS Office. Submission of an EOP application which results in ineligibility will delay processing of your application for regular admission.

Because the number of EOP places is limited, you should file your application forms early in the filing period. Before doing so, however, please consult with the EOP Office at the campus of your choice and an EOPS counselor at Columbia College.

International (Foreign) Student Admission Requirements—The CSU must assess the academic preparation of foreign applicants. For this purpose, “foreign students” include those who hold U.S. visas as students, exchange visitors, or other non-immigrant classifications.

The CSU issues separate requirements and application filing dates in the admission of foreign students. Verification of English proficiency (*see the previous TOEFL section*), financial resources, and academic performance are all important considerations. Official academic records from foreign institutions must be on file at least eight weeks before registration for the first term and, if not written in English, must be accompanied by certified English translations. Priority for admission is given to California residents.

Selection of Major—The majors offered at each campus are listed in the back of the CSU application booklet. You should review program descriptions in campus catalogs before you file your application; options within programs at one campus may be similar to differently named programs at other campuses. If you are uncertain about your major, some campuses accept students who are uncertain about their major (*undeclared*). We encourage you to use this category if you are unsure about what field to pursue. There are advising and information resources available on each campus to help you select an appropriate major.

Choice of Campus—The CSU application allows you to designate the CSU campus of your choice and an alternate campus to which your application will be forwarded in the event your first choice campus cannot accommodate you. When designating an alternate campus, be sure that your major or alternate major is offered at that campus.

The CSU accepts most applications at the first choice campus in the first choice major during the initial filing period. Most campuses consider applications for an alternate major

before forwarding the application to the alternate campus. When designating an alternate campus, you should be certain that the major or alternate major is offered and not impacted at the alternate campus (See Impacted Programs) and the alternate campus is still accepting applications. It is not possible for your application to be redirected to impacted campuses and programs.

It is generally unnecessary to file more than one application to CSU during the initial filing period; however see the following section on Impacted Programs. During periods of high demand and limited resources, some campuses may not accept applications for winter, spring or summer terms.

The CSU assigns highest admission priority to California Community College transfer students who have completed the first two years of their baccalaureate program, including those applying for impacted programs. In addition, CSU campuses will make every effort to see that California Community College transfer students originally eligible for admission as first-time freshmen are admitted to their first choice CSU campus.

Impacted Programs—The CSU designates programs as impacted when more applications are received in the first month of the filing period than can be accommodated. Some majors are impacted at every campus where they are offered; others may be impacted only at some campuses. Applicants to impacted majors must file an application for admission during the first month of the filing period and will be subject to supplementary admission criteria. Priority for admission to impacted programs is given to California residents.

If you wish to be considered in impacted majors at two or more campuses, you must file an application to each. The CSU announces each fall the majors that are impacted and the supplementary criteria required by the campuses. That announcement is published in the *CSU REVIEW* distributed to high school and college

counselors. Information about the supplementary criteria is also sent to program applicants.

Last year, several programs were impacted at every CSU campus offering the programs. If you apply to one of these programs and are not accommodated, you can be redirected only in an alternate major that is not impacted.

Supplementary Admission Criteria—Supplementary admission criteria may include overall grade point average and a combination of campus-developed criteria. If you are required to submit scores on either the SAT I or the ACT, you should take the test no later than early December if applying for fall admission or November if applying to San Luis Obispo.

Please consult with any CSU campus Admission or Relations with Schools Office for further information.

UNIVERSITY OF CALIFORNIA

Transfer Requirements

The University of California system has established the following campuses:

University of California, Berkeley
University of California, Davis
University of California, Irvine
University of California, Los Angeles
University of California, Merced
University of California, Riverside
University of California, San Diego
University of California, San Francisco (medical majors only)
University of California, Santa Barbara
University of California, Santa Cruz

Selecting Campuses and Programs of Study

The University encourages you to approach your selection of University campuses and programs carefully. You may be familiar with only one or two of the University's ten general campuses, probably those nearest your home or those mentioned more

frequently in the news. However, you should consider the many different educational alternatives and programs offered by all the campuses before you make your selections and complete your application. Each of the ten general campuses offers a full range of undergraduate programs.

For each campus you apply to, you must choose a major and indicate your choice on your application. You may choose the same major at all campuses or a different major at each one. You may also select an alternate major at some campuses, *although there is no guarantee that you will be admitted to the alternate major if you are denied admission to your first choice.*

You may apply to some schools or colleges at all of the campuses using the Undeclared, Undecided major option if you have not yet decided on an area of study. The University encourages you to apply as Undeclared rather than indicate a major that does not interest you. If you wish to apply as Undeclared, check with the campus(es) first because the options available to Undeclared majors vary from campus to campus. If you apply for one major and later request a change to another, campuses will make every effort to honor your request but there is no guarantee. When making your selections, keep in mind that some campuses and programs are highly competitive and can accept only a limited number of students each year. The University encourages you to apply to additional campuses that interest you to increase your chance of being admitted to one of your choices.

Undergraduate Programs

The undergraduate programs offered by each campus, and the concentrations available within these programs, are listed in the admissions application.

All campuses offer the general courses required for admission to professional schools in the health sciences, business, and law. The University does not offer formal pre-professional majors, however some campuses offer special undergraduate

programs that include all the professional school prerequisites.

If you have any questions about academic programs, contact the Admissions or Relations with Schools Office at the campus you wish to attend.

Admission as a Transfer Student

The University considers you a transfer applicant if you graduated from high school and enrolled in a regular session at a college or university. Do not disregard your college record and apply as a freshman.

If you plan to attend Columbia College before applying to the University, you should take courses that are UC transferable, that satisfy University and college requirements, and that fulfill admission, lower division general education and prerequisite courses in your major. *Advisors in the Admissions Office at the campus you wish to attend and Columbia College counselors can help you with your planning.* UC will not grant unit credit toward graduation for coursework completed in excess of 70 lower division transferrable semester units. *See also UC Transferable Course Agreement (TCA) on page 50 and the Intersegmental General Education Transfer Curriculum (IGETC) on pages 51-52.* The University publishes a booklet especially for transfer applicants called *Answers for Transfers*. It is available in the Career/Transfer Center on campus.

Minimum Eligibility Requirements for Transfer to UC

When there are more eligible applicants than spaces available, each campus uses academic criteria alone, i.e., academic coursework, grade point average, SAT I or ACT results, and SAT II test scores, to select between 40 and 60 percent of those accepted. Each campus uses a combination of academic and supplemental criteria to select the remaining admittees. If the number of applicants exceeds the spaces available for a particular campus or major, the campus uses criteria that exceed the minimum requirements to

select students. Meeting the minimum requirements, therefore, is not enough to gain admission to many UC campuses and programs.

The selection criteria for each academic year described in the UC publication *Introducing the University* and some campus catalogs may be found in the Career/Transfer Center. The criteria vary from year to year and from campus to campus.

All UC campuses are on the quarter calendar except Berkeley, which is on the semester system. The quarter calendar often prohibits mid-year transfer because the end of the fall semester (*typically late January*) and the beginning of the winter quarter (*early January*) overlap. Therefore, you often cannot transfer to the University for the winter quarter if you enroll in a community college or other institution with a fall semester that does not end prior to January 1.

For California Residents

There are three ways in which you can meet the UC's minimum admission requirements for transfer students. These requirements are described below. In all cases, you must have at least a **C** (2.0) average in all transferable coursework.

1. If you were eligible for admission to the UC when you graduated from high school—meaning you satisfied the Subject, Scholarship, and Examination Requirements—you are eligible to transfer if you have a **C** (2.0) average in your transferable college coursework.
2. If you met the Scholarship Requirement, but did not satisfy the Subject Requirement, you must take college courses in the subjects you are missing to be eligible to transfer. You will need to earn a grade of **C** or better in each of these required courses, and an overall **C** (2.0) average in all transferable college coursework. If you completed less than 12 quarter or semester units of transferable college coursework, you must also satisfy the Examination Requirement.

3. If you were not eligible for admission to the UC when you graduated from high school because you did not meet the Scholarship Requirement, or you did not meet the Scholarship Requirement and did not complete all the required "a-g" subjects, you must:
 - a. Complete a minimum of 90 quarter units or 60 semester units of transferable college credit with a grade point average of at least 2.4, and satisfy either (b) or (c) as follows.
 - b. Take college courses in the subjects you are lacking and earn a grade of **C** or better in each one. (*The University will waive up to two units of the required high school coursework except in mathematics and English.*)
 - c. Complete one college course in mathematics, two in English, and four selected from either U.S. history, laboratory science, or language other than English. You must earn a grade of **C** or better in each course.

Nonresidents

The minimum admission requirements for nonresident transfer applicants are the same as those for residents except that nonresidents must have a grade point average of 2.8 or higher in all transferable college coursework.

Articulation System Stimulating Interinstitutional Student Transfer (ASSIST)

As a prospective transfer student, it is important to make sure your community college courses are acceptable to the UC or CSU for transfer credit. ASSIST is California's official statewide repository of transfer information, offering easy access to a single database. ASSIST can help you determine if you will receive credit for courses you have already taken and how those courses apply to general education (IGETC or CSU GE Breadth), major preparation requirements and elective credit. (www.assist.org)

Transfer Admission Guarantee (TAG)

Columbia College has available guaranteed admission agreements with the University of California campuses at Davis, Riverside, Santa Cruz, and Santa Barbara. The purpose of the TAG is to guarantee students admission to the university or college with which the TAG has been contracted. The TAG assures students that the courses to which they have committed will meet requirements for admission, general education and lower division major preparation. The TAG should be written at least one year prior (*completion of 30 UC-transferable units*) to enrollment in the four-year university or college to which the student is transferring and cannot be used for any term other than the one indicated in the signed agreement. If you plan to transfer to any one of these four campuses, you must see a counselor as soon as possible in order to initiate the Transfer Admission Guarantee process. There are strict deadlines for UC Davis at this time and TAG'S may not be available for all quarters/semesters of the academic year.

Transferable Course Agreement (TCA)

The Transferable Course Agreement is available at <http://www.assist.org>. Please contact a counselor for additional information.

IGETC 2009-10 INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM FOR TRANSFER TO THE UNIVERSITY OF CALIFORNIA AND THE CALIFORNIA STATE UNIVERSITY

Completion of the Intersegmental General Education Transfer Curriculum – IGETC will permit a student to transfer from a community college to a campus in either the California State University or the University of California system without the need, after transfer, to satisfy specific campus lower-division general education requirements. It should be noted that completion of the IGETC is not a requirement for transfer to CSU or UC, nor is it the only way to fulfill the lower-division general education requirements of these systems prior to transfer. The IGETC is an alternative General Education Pattern for transfer to the CSU and UC systems. Depending upon the major and/or the campus of choice, some students may be better served by taking courses which fulfill the CSU General Education Breadth Requirements listed on pages 53-54 of this catalog or those listed in the CSU or UC campus of choice catalog. Students

pursuing majors that require extensive lower-division major preparation may not find the IGETC option to be advantageous. The IGETC will probably be most useful for students who want to keep their options open before making a final decision about transferring to a particular CSU or UC campus.

The course requirements for all areas must be fully completed with a grade of C or better before the IGETC can be certified. A student must request an IGETC Certification from the Admissions & Records Office. Certification will be sent after the last semester is completed at Columbia College. Courses taken from the IGETC List at another community college will be used in the final certification. Advanced Placement Examination credit may be used in some, but not all areas.

Area 6 – Language Other Than English

(UC Requirement Only) Students transferring to the University of California are required to demonstrate competence (proficiency) in a language other than English equal to two years of high school study. The process for demonstrating competency is outlined below:

1. Completion of two years of high school level work in the same foreign language with a grade of "C" or better.
2. Completion of a course (or courses) at another college or university, with a grade of "C" or better in each course. Generally, one semester of college work in a language other than English is considered to be equivalent to two years of high school level work. Students must provide the following documentation: test name, score, date test was completed and name of school.
3. In addition, the UC faculty has agreed that a CCC faculty member is qualified to determine language proficiency equal to two years of high school study. The faculty member provides a letter on letterhead asserting the student has mastered proficiency in the language equivalent to two years of high school study or higher.

Any one of the courses listed below completed with a grade of "C" or better will fulfill the requirement:

Columbia College/Modesto Junior College Equivalent Courses (2009)

Yosemite Community College District is home to two great community colleges, Columbia College (CC) and Modesto Junior College (MJC). That means that some of Columbia's courses are equivalent to courses offered at Modesto Junior College. If you have taken courses at either school and wish to take courses at the other, see the guide below.

Advanced Placement Examination Credit for Columbia College AA/AS and CSU General Education Breadth Requirements

Students must have scored 3, 4, or 5 on an Advanced Placement examination listed below to receive the credit indicated. All CSU campuses will accept the minimum units shown below toward fulfillment of the designated General Education-Breadth area if the examination is included in a full or subject-area certification; individual CSU campuses may choose to accept more units than those specified below towards completion of General Education-Breadth requirements. The CSU campus to which the student is transferring determines the total number of units awarded for successful completion of an Advanced Placement examination and the applicability of the examination to other graduation requirements. As of 1998-99, the Columbia College catalog reflects the CSU GE Breadth pattern numbering system as per E.O. 595, for the Associate Degree and CSU GE Areas. General Education credit will be awarded on the transcript without using the specific Columbia College equivalent course.

POST-SECONDARY STUDIES

The purpose of the Post-Secondary Studies Degree is to properly prepare students whose goal is to transfer from Columbia College to a university in a major that has extensive baccalaureate major preparation coursework. Students seeking this major must work closely with a Columbia College counselor to identify their transfer destination university and baccalaureate degree major, to identify lower division (freshman-sophomore year) major requirements, to select an area of emphasis and specific coursework in this degree which reflect their educational direction, and to complete a corresponding Educational Plan.

(Call 209.588.5109 for a counseling appointment.)

Degree Requirements

- A. Completion of a minimum of 60 units; 12 units must be completed in residence.
- B. Overall grade point average of 2.0 or better ("C" average) based on all work attempted in college.
- C. Filing an application for graduation.
- D. Competence in reading, in written expression and in mathematics as demonstrated by completing the following classes with a grade of "C" or better:
 - ENGL 1A, Reading and Composition: Beginning
 - Any transferable mathematics course
- E. Completion of Associate Degree course requirements as outlined below.

General Education

With the assistance of a counselor, select a General Education pattern (below) and document the General Education course choices on an Educational Plan.

- A. California State University (CSU) transfers: (30 units)
 - Complete Column IV of the Columbia College Pattern of General Education for CSU transfer listed in the Columbia College Catalog, OR
 - Complete the Columbia College IGETC (Intersegmental General Education Transfer Curriculum) pattern for CSU listed in the Columbia College Catalog.
- B. University of California (UC) transfers: (30 units)
 - Complete the Columbia College IGETC (Intersegmental General Education Transfer Curriculum) pattern for UC listed in the Columbia College Catalog or see your counselor to identify and document the individual breadth pattern for the campus of your choice.
- C. Customized Program: (30 units)

With the assistance of a counselor and as documented on your Educational Plan, choose from the Columbia College General Education Breadth Requirements in the Columbia College Catalog:

- One Natural Sciences course (3 units minimum) from GE Area B-1 (Physical Sciences) or GE Area B-2 (Biological Sciences).

- One Social and Behavioral Sciences course (3 units minimum) from GE Area D (Social, Political and Economic Institutions and Behavior).

- One Humanities course (3 units minimum) from GE Area C (Arts, Literature, Philosophy, and Foreign Language).

- One Language and Rationality/English Composition course (3 units minimum) chosen from ENGL 1A, ENGL 1B or ENGL 1C.

- One Language and Rationality/Communication and Analytical Thinking course (3 units minimum) from GE Area B-4 (Mathematical Concepts, Quantitative Reasoning and Applications).

- Additional courses (15 units minimum) chosen from any of the areas listed above.

Activity Courses/Institutional Requirement

Select two physical activity courses under the Health and Human Performance listings.

Electives

Select additional elective courses, if necessary, to bring the total to 60 transferable units.

Area of Emphasis

Complete a minimum of 18 units with a "C" grade or better from one Area of Emphasis listed below. With a counselor, choose an Area of Emphasis that is appropriate for your transfer major (i.e., lower division transfer major preparation and transfer general education courses should be used to meet this 18-unit requirement). This degree must be documented in an Educational Plan to be created by the student with their college counselor, and needs to accurately reflect college-to-university course-to-course articulation for the specific major and destination university as stipulated on the ASSIST.org website, or as defined by major preparation in the destination university catalog.

Certificates of Achievement & Skills Attainment Certificates

Certificate programs are designed to prepare vocational students for employment. Requirements of each certificate have been determined by the faculty offering the program with the help of their advisory committees.

Certificates of Achievement are offered in programs requiring a minimum of 12 units. Skills Attainment Certificates are offered in programs requiring fewer than 12 units.

For students entering Columbia College for the first time in Fall 2009, the following certificate requirements are valid through the 2012-13 academic year. A student taking more than four years of continuous attendance to complete a certificate may only use certificate requirements in effect up to four years prior to the date of completion.

In order to qualify for a certificate, a student must complete all courses listed in the certificate, with a grade of **C** or better. Credit (**CR**) and Pass (**P**) grades are not accepted. No more than **30 percent** of the courses required for the certificate may be fulfilled with parallel courses completed at other accredited institutions. (This 30% rule applies to colleges and universities NOT in the Yosemite Community College District.)

Units earned in obtaining a certificate may be applied toward the 60 units required for an Associate Degree.

Consult the Academic Calendar for filing deadline dates.

The following are specific requirements of the certificate programs listed. Completion of certain certificate programs may necessitate attending classes during evening only or a combination of both day and evening classes.

Course Articulation with Other Colleges

Columbia College articulates many of its courses with other public and private two- and four-year colleges and universities. Please ask your counselor or the Career/Transfer Center Technician for information related to agreements which identify courses that will transfer and those that meet lower-division preparation for the major.

Transferability of Courses

Courses that transfer to the California State University System (CSU) and/or the University of California System (UC) are designated at the end of the course description:

CSU—Transfer to CSU System

UC—Transfer to UC System

UC/CSU—Transfer to both systems

UC or CSU—(Transfer credit limited. See a counselor.)

Students must understand that some courses designated as baccalaureate level may not meet certain requirements at the transferring institution; however, they may be used for elective credit at the discretion of the transfer school. Several

new courses are under review and should not be considered for transfer until official approval has been received. Check with the Articulation Officer for status of these courses.

Course Description

A course description is given for each credit course offered by the College. Students should refer to the course description for information concerning course prerequisites and allocation of class hours for lecture, laboratory, field trips, or other required learning activities. Refer to page 36 for important prerequisite information.

Courses Not Listed in the Catalog

1. Non-Credit Courses

In an effort to meet some of the special interest needs of the populations served by the College, non-credit courses are usually offered each semester. Some of these are listed on page 167 of the catalog. Others are offered either through Continuing Education or Community Services sponsorship. Non-credit courses cannot be applied toward fulfilling graduation, transfer, or vocational education programs, but such courses do provide information and/or training on a variety of topical subjects.

2. 70/170/270 Courses: Special Topics

Instruction is offered in a variety of special topics within broader discipline areas (such as child development). Lecture and/or laboratory hours, units of credit, repeatability, and transferability may vary. Check with school to which student is transferring.

3. 98/198 Courses: Experimental Courses

The topic, the number of units and hours, and prerequisites (if any), will be determined in advance and published in the Schedule of Classes. Note that 98/198 courses may be repeated for credit with different topics only. For UC campuses, these courses may transfer for elective or other credit and will not fulfill requirements unless pre-authorized. It is the student's responsibility to have the course pre-authorized by the appropriate UC department chair and admissions office.

4. 99/199 Courses: Independent Study

Independent study courses are intended to give students an opportunity to independently research specialized areas not available as regular course offerings of the College. They are designed to meet specific student interests and may be made available in any subject matter area. Consult your advisor for specific procedures. (See page 39 for conditions, limitations.) For UC campuses, these courses may transfer as electives or other credit as pre-authorized by the transfer school. It is the student's responsibility to have the course pre-authorized by the appropriate UC department chair and admissions office.

Course Repetition

Courses may be repeated for credit only if: (1) the student has received a substandard grade (**D, F, NC** or **NP**) or (2) the course is approved as repeatable by the College Curriculum Committee and is so identified in this catalog. See page 38 for more information.
